

Research Scientist, Fisheries and Aquaculture Division,
CSIR-Water Research Institute, Ghana.

Mr. Etorny Agbeko is a Research Scientist at the Council for Scientific and Industrial Research-Water Research Institute, Ghana.

He was employed at the CSIR-Water Research Institute where he did his National Service in the Fisheries Division.

He has served on a number of National and Local Technical Committees, including executive committee member for Ghana Forum for Agriculture Advisory Services and Support (GFAASS). Mr. Agbeko has co-ordinated and participated in various consultancy services to governmental and non-governmental agencies, companies, communities and private individuals in the areas of fish catch assessment, implementation of aquaculture projects, and production of Nile Tilapia and Catfish. Mr. Agbeko is responsible for the supervision of Technical Staff, Training of Students and Fish Farmers in sustainable aquaculture. He also conducts aquaculture experiments, field surveys, data collection, analysis and reporting of research findings through presentation at workshop, seminars, and/or in annual reports. He has published over 15 articles in local and international peer-reviewed journals. His current research area of interest is in aquatic eco-toxicology and sustainable aquaculture.
